It sounds a bit like they found their inspiration in the complex fields of a pioneer like The Klinik or yet Mortal Constraint that was active in the early nineties. But their sound isn't like a typical emulation of the aforementioned bands neither out of time. another cut in a similar line. The harsh Spanish vocals are really convincing on pieces like "Hienas" and "Mutilación Interior". Larva is a band that for sure strives for a wider recognition and this album will be a good weapon to help them.
